

Decision of the Scientific Research Ethics Committee

no. 3763 of 30.04.2025

The Scientific Research Ethics Committee within the George Emil Palade University of Medicine, Pharmacy, Science, and Technology of Târgu Mureș evaluated from the perspective of observing the ethical norms of scientific research the study proposal entitled

“Drug therapy awareness in the everyday patient – with special focus on side effects and pain management”

Addressed to the Commission on 16.04.2025 by **Mr. Stuefer Gabriel** and **Ms. Martina Giorio**, position Students, at UMFST G.E. Palade Tg. Mureș - UMCH.

Following the evaluation of the documents submitted, the Committee decides:

c) failure to approve the study for the following reasons:

- 2 students cannot have the same research topic for a graduation thesis;
- the approval of the local (hospital setting) ethics committee is missing (*“consent of the institution of origin of the research subjects”*);
- the informed consent and information for subjects are missing.
